Definitions:

County Lines: County Lines is where illegal drugs are transported from one area to another, often across police and local authority boundaries (although not exclusively), usually by children or vulnerable people who are coerced into this by gangs. The 'County Line' is the mobile phone line used to take the orders of drugs. [County Lines - National Crime Agency](#)

Drugs Line: Is a term referred to the particular '*County Line*' the mobile phone line used to take the orders of drugs, distribute to a specific area.

Cuckooing: Organised Crime Groups (OCGs) often use high levels of violence and intimidation to protect the 'county line' and control them. One of these forms of control exploits vulnerable people

by using their home as a base for dealing drugs, a process known as cuckooing. Dealers often convince the vulnerable person to let their home be used for drug dealing by giving them free drugs or offering to pay for food or utilities.

Often OCGs target people who are lonely, isolated, or have addiction issues. It's common for OCGs to use a property for a short amount of time, moving address frequently to reduce the chance of being caught. [County lines | Metropolitan Police](#)
